Life as it is

There is a need to be more connected
Not by some fear of being rejected
We stand face to face with our fears and our sorrow
Staring them down, stepping into tomorrow
Life as it is, not life as it was
Is ours to find, to keep, to save
Life as it is

You carry joy like I do depression
Possessing a soul shining light bright as heaven
Your laughter it echoes through all of the sadness

Changing it into a true, inner gladness
Life as it is, not life as it should
Is ours to have, to hold, to free
Life as it is

Life as it is, not life as it as
Is mine to give, and yours to take
Life as it is
